· THE OPPORTUNITY ·

China is the world's *largest trade fair market.*

China hosts more international trade fairs, expos and exhibitions than any other country on earth. From the Canton Fair — the world's largest trade show — to specialist industry expos in Shanghai, Beijing, Shenzhen and Guangzhou, millions of global buyers, delegates and business travellers visit China annually.

ORN is building a comprehensive contracting programme specifically for China — securing preferential hotel rates, venue partnerships and ground arrangements for the global delegate market. Our 80,000+ active agent partners across India, UK, Europe, USA, Australia and the Philippines represent exactly the source markets driving China inbound demand.

· India is the #1 source market for China business travel · UK and Europe represent growing delegate segments · ORN's B2B network accesses all key feeder markets simultaneously ·

China International Consumer Electronics Show

📍 QINGDAO INTERNATIONAL CONVENTION
& EXHIBITION CENTRE

China's leading consumer electronics expo — attracting global brands and buyers across smart home, audio, wearables and emerging technology. Growing international delegate profile.

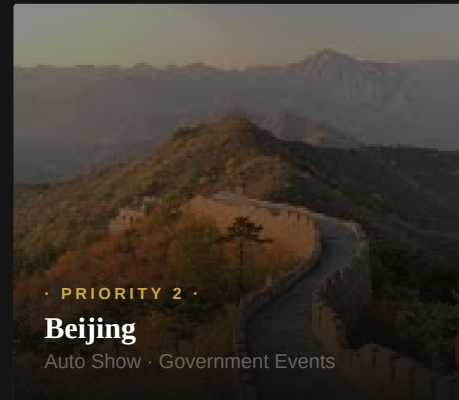

"China's trade fair ecosystem is the single largest generator of planned international business travel in the world — and it remains systematically underserved by global travel platforms."

· ORN CHINA CONTRACTING STRATEGY · 2026 ·

Priority Cities for *China Hotel Contracting*

ORN's China programme targets the cities accounting for over 80% of international delegate arrivals — prioritising 4 and 5-star inventory near major convention and exhibition centres.

What ORN Is *Looking to Contract*

We are actively seeking Chinese hotel, ground and venue partners to join the ORN distribution network — with a specific focus on properties serving the key fair and expo destinations above.

4 & 5-Star Hotel Rates

Direct contracted net rates for Shanghai, Guangzhou, Beijing, Shenzhen and Chengdu. FIT and group rate structures. Static and dynamic/API connectivity. Fair-period and shoulder-period rates.

Group & MICE Allocations

Block allocations during peak fair periods — Canton Fair (April/October), CIIE (November), Hi-Tech Fair (June). Group rates for delegations of 10–200 pax with dedicated rooming lists.

Ground & Transfers

Airport transfers, exhibition centre shuttles, city tours and ground programmes. Particularly required for Guangzhou (Baiyun Airport to Canton Fair) and Shanghai (Pudong/Hongqiao to NECC).

Preferred Partner Status

Priority placement across ORN's 80,000+ agent network, co-marketing in source market campaigns across India, UK, Europe, USA and Australia, and inclusion in all China-specific promotions.

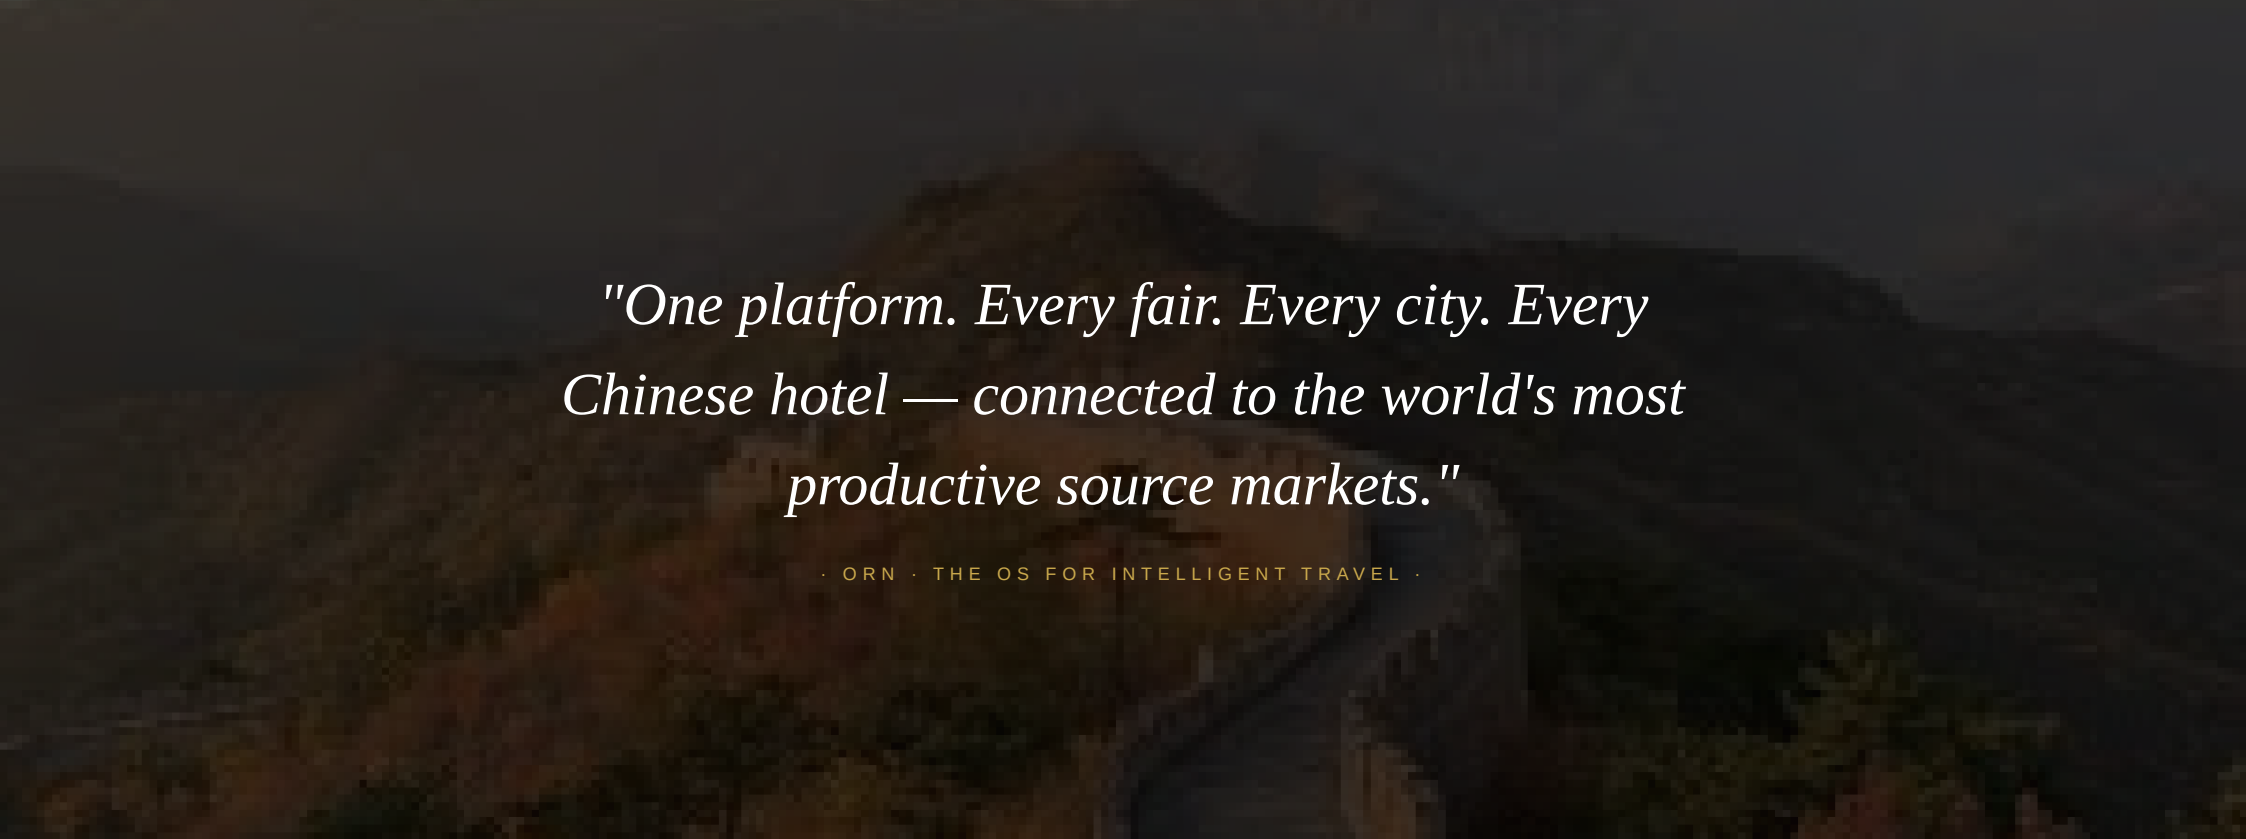

API / Channel Manager Connectivity

Dynamic connections via REST/JSON API or existing channel manager integrations (SiteMinder, Webhotelier). Static net rate contracts accepted where dynamic connection is unavailable.

Value-Added Inclusions

Breakfast, late check-out, early check-in, fair shuttle access and upgrades for volume-committed partners. Co-marketing credits and priority availability during peak fair periods.

*"One platform. Every fair. Every city. Every
Chinese hotel — connected to the world's most
productive source markets."*
