The world didn't change when
travel became bookable online.

It changed when *ORN*
wrapped it around the traveller.

From our headquarters at 17 Hanover Square in the heart of London's Mayfair, ORN is redefining travel across the United Kingdom, Europe, the United States and Australia — connecting every feeling worldwide to every human, at scale. One platform. Every journey.

• WHO WE ARE • LONDON HQ

ORN *built* the infrastructure travel deserved.

ORN — Orchestrated Rhythms of Nature — has built the operating system for intelligent travel. From our London base at **17 Hanover Square, Mayfair**, we orchestrate every flight, hotel, experience and journey across the UK, Europe, USA and Australia on a single unified platform, powered by our proprietary **NX/OS** intelligence layer.

What ORN has done for travel is what Apple did for music. We didn't invent travel — we reinvented how it feels to experience it. For the British, European, American and Australian traveller, ORN delivers a deeply personalised journey: from the moment of inspiration through to the final memory.

Backed by the **HCL Group** — a \$60 billion enterprise — and headquartered in the heart of London, ORN is positioned as the definitive intelligent travel platform for western markets.

• THE VISION • NX/OS

Rewiring western travel the way it *should* be.

"iOS was the Operating System for the Mobile Age. NX/OS is the Operating System for the Travel Age — a unified intelligence layer built to serve the discerning British, European, American and Australian traveller with unparalleled personalisation."

NX/OS learns every traveller's preferences, past journeys, mood and context — proactively personalising every element in real time. For the UK and European market, this means seamless multi-country itineraries, rail integrations across Eurostar and European networks, and curated experiences from London to Lisbon. For the US and Australian traveller, it means intelligent long-haul journeys, premium connections and local expertise at every destination.

THE OLD WAY

Fragmented

How western travellers book today

- Multiple apps, websites and agents
- No cross-platform intelligence
- Reactive, not proactive
- Generic offers, not personalised
- Disconnected loyalty programmes

THE ORN WAY • NX/OS

Orchestrated

How ORN serves western markets

- › One intelligent platform, every journey
- › Real-time adaptation and concierge
- › Proactive, predictive, personal
- › Curated for UK, EU, US & AUS tastes
- › Unified cross-brand loyalty currency

• OUR WESTERN MARKET STRENGTHS

Five pillars for *western markets.*

ORN's London headquarters leads our western markets strategy, backed by the same global infrastructure that has made us the operating system for intelligent travel worldwide — now focused on delivering excellence across the UK, Europe, USA and Australia.

1

A Brand Western Travellers Trust

Built on transparency, quality and the understanding that UK, European, American and Australian travellers expect the very best

2

Distribution Across Western Markets

UK travel trade, European OTAs, US corporate travel, Australian inbound and outbound — all connected

3

NX/OS — Western Market Intelligence

Tailored for UK, EU, US & AUS travel behaviours — Eurostar, BA, Virgin, Qantas and beyond

4

Financial Strength & HCL Group Backing

\$60B enterprise backing, zero debt, profitable since Day 1 — the stability western partners demand

5

London Headquarters · Global Reach

17 Hanover Square, Mayfair — the heart of London's international business district, serving 104 nationalities

• WESTERN MARKET OPPORTUNITY

The UK, Europe, USA & Australia — *our focus.*

The four markets ORN serves from London represent the highest-value travel segments in the world. British, European, American and Australian travellers are amongst the most frequent, highest-spending and most experience-driven in the global market — and they have been chronically underserved by fragmented, impersonal booking platforms.

ORN facilitates the full travel journey for western market travellers: from the London weekend break to the three-week Australian road trip, from the European family holiday to the US corporate travel programme. NX/OS intelligently surfaces the right offer, from the right partner, at exactly the right moment — whether that's a Eurostar upgrade, a BA business class seat, a Maldives overwater villa or a New York boutique hotel.

For travel trade partners operating in the UK, Europe, USA and Australia, ORN offers unrivalled access to engaged, high-spending travellers through a single intelligent platform.

WESTERN MARKET	OUTBOUND	AVG SPEND
United Kingdom	70M	£4,200
Europe (excl. UK)	420M	€3,800
United States	100M	\$5,400
Australia	28M	A\$6,200

• FINANCIAL STRENGTH & LEADERSHIP

World-class *foundations.*

ORN's London office is led by a world-class team with deep roots across UK, European, US and Australian travel markets. Backed by \$60B in HCL Group capital, profitable since Day 1, and structured to serve western market partners with the agility of a startup and the stability of a global conglomerate.

Every corner of the world,
intelligently orchestrated.

One platform. *Every journey.*

ORN has built a fully integrated travel ecosystem designed specifically to serve the expectations of UK, European, US and Australian travellers. Six distinct brand verticals — each class-leading in its segment — all powered by NX/OS and delivered from our London headquarters. Whether a British family booking a European villa, an American executive on a transatlantic business trip, or an Australian couple planning a honeymoon in the Maldives, ORN orchestrates every detail.

For UK and European travel trade partners, our white-label and API platform integrates seamlessly with existing systems, bringing NX/OS intelligence directly to your customers without disruption. For US and Australian operators, ORN provides unrivalled access to inbound European demand alongside outbound high-value travellers.

Key western market integrations include British Airways, Virgin Atlantic, Eurostar, easyJet, Qantas, United and American Airlines; Marriott, Hilton, IHG and Accor properties across the UK, Europe, USA and Australia; and curated experience networks covering everything from London theatre to Sydney harbour cruises, Alpine skiing to Caribbean yacht charters.

ORN's **white-label platform** allows UK and European travel agents, US travel management companies and Australian travel operators to embed ORN's intelligence directly into their own products and customer journeys — creating a new category of personalised, adaptive travel service that western market clients now expect.

ORN Flights

BA, Virgin, Eurostar, easyJet, Ryanair, Qantas, United, Delta, American and all major western market carriers — with exclusive fares and flexible options.

ORN Hotels

1.2M+ properties across the UK, Europe, USA and Australia — from London boutiques to Parisian palaces, New York lofts to Sydney harbourfront hotels.

ORN Cruise

Mediterranean, Caribbean, Norwegian Fjords, Australian coastal — every major cruise line, curated for the discerning British, European and Australian traveller.

ORN Rail

Eurostar, SNCF, Deutsche Bahn, Trenitalia, Renfe, Amtrak — seamless pan-European and US rail, the sustainable choice for western market travellers.

ORN Cars

Hertz, Avis, Enterprise, Europcar, Sixt — with EV and premium options across the UK, Europe, USA and Australia for business and leisure.

ORN Experiences

London theatre, Paris gastronomy, New York culture, Sydney adventures — hand-curated experiences surfaced by NX/OS at the perfect moment.
