• ORN — ORCHESTRATED RHYTHMS OF NATURE

The world didn't change
when travel became bookable online.

It changed when *ORN*
wrapped it around the traveller.

ORN is the operating system for intelligent travel — connecting every feeling worldwide to every human, at scale. One platform. Every journey. From music in your pocket, to every experience in the world — just a feeling away.

• WHO WE ARE

ORN *built* the infrastructure travel deserved.

ORN — Orchestrated Rhythms of Nature — has built the operating system for intelligent travel. Orchestrating every flight, hotel, experience and journey on a single unified platform, powered by our proprietary **NX/OS** intelligence layer.

What ORN has done for travel is what Apple did for music. Apple didn't invent music — they reinvented how it felt to experience it. ORN has done the same for travel: from transactions to feelings, from scattered apps to a single intelligent layer that learns, adapts and personalises every journey in real time.

Backed by the **HCL Group** — a \$60 billion enterprise with a 226,000-strong global workforce across 200+ delivery centres — ORN has the operational scale, financial stability and technological depth to become the definitive platform for global travel.

• THE VISION • NX/OS

Rewiring the world the way it *should* be.

"iOS was the Operating System for the Mobile Age. NX/OS is the Operating System for the Travel Age — a unified intelligence layer that understands every traveller's mood, context and rhythm, and orchestrates the perfect journey before they even ask."

ORN's NX/OS intelligence layer learns each traveller's preferences, past journeys, mood and context — proactively suggesting, adjusting and personalising every element of the trip in real time. Flight delayed? NX/OS has already rebooked dinner. Rain forecast? Your afternoon itinerary has been quietly updated. A once-in-a-lifetime sunset at Piazzale Michelangelo? Queued. This is not a booking engine. This is the infrastructure for the next generation of travel — intelligent, adaptive, and deeply personal.

YESTERDAY

iOS

Operating System for the Mobile Age

- A unified platform for mobile life
- Apps, Maps, Messages, App Store
- Connected devices to a digital world
- Defined a generation of consumers
- Built the infrastructure of mobile commerce

TODAY • ORN

NX/OS

Operating System for the Travel Age

- › A unified platform for intelligent travel
- › Concierge, Adaptation, Marketplace, Loyalty
- › Connects every experience to every human
- › Defining the next generation of travellers
- › Building the infrastructure of experiential commerce

• GLOBAL CONSTRUCT

Built on five *unshakeable* pillars.

ORN's five-layer global construct delivers the infrastructure, distribution, technology and trust that no single travel platform has been able to unify — until now. Each pillar reinforces the next, creating a system that is simultaneously scalable, defensible and deeply human.

1

Respectable Trusted Brand

A brand built on trust, transparency and the belief that travel should feel as extraordinary as it is

2

Global Distribution Network

Americas, Europe, Middle East, Asia-Pacific, Australia & New Zealand — 104 nationalities served

3

Differentiated Technology & Products

Proprietary NX/OS platform, 150+ innovation labs, API-first, white-label ready, ISO 27001

4

Solid Financial Position & Backing

\$60B HCL Group backing, zero debt, profitable since Day 1, \$1.5B Via.com GMV

5

People, Assets & Infrastructure

226,000+ professionals, 200+ delivery centres, physical presence across every major market

• MARKET OPPORTUNITY

3.2 billion travellers.

One platform.

The global travel market represents one of the largest and most fragmented opportunities in human commerce. ORN is the first platform built to serve the entire spectrum — from the family holiday to the spiritual pilgrimage, from the solo adventure to the luxury honeymoon — with a single intelligent operating system that personalises every moment.

ORN facilitates the full travel journey: discovery, inspiration, booking, pre-travel planning, in-destination concierge, real-time adaptation, post-travel loyalty and re-engagement. For partners, this means access to 3.2 billion potential travellers through a single integrated platform — with NX/OS intelligently surfacing the right offer, to the right traveller, at exactly the right moment in their journey.

Every segment, every region, every feeling — connected through one operating system.

TRAVELLER SEGMENT	VOLUME	AVG SPEND
Couples (Milestones, Romance)	800M	\$4,000

Every corner of the world,
intelligently orchestrated.

One platform. *Every journey.*

ORN has built a fully integrated travel ecosystem — six distinct brand verticals, each class-leading in its segment, all powered by the NX/OS intelligence layer. Whether you are booking a flight, choosing a hotel, charting a cruise route, reserving a rail journey, hiring a vehicle or curating a local experience, ORN delivers a seamless, personalised journey from start to finish.

For travel trade partners, tour operators, corporate clients and technology companies, ORN offers flexible commercial models: white-label, revenue share, co-brand and API distribution — each designed to generate immediate and compounding value.

The NX/OS platform is API-first and white-label ready, allowing partners to embed ORN's intelligence directly into their own products, apps and customer journeys. The result is a new category of travel product — one that feels bespoke, responds in real time, and grows smarter with every interaction.

ORN's partner network spans 13+ major airlines, 13+ global hotel chains, all leading cruise lines, rail operators across Europe and Asia, and 10+ curated experience platforms — covering 104 nationalities across every inhabited continent.

ORN Flights

Thousands of routes across every major airline and low-cost carrier, with exclusive fares, flexible options and real-time price intelligence.

ORN Hotels

1.2M+ properties — from boutique city stays to landmark five-star resorts — intelligently matched to each traveller's profile and context.

ORN Cruise

The premier cruise comparison and booking platform — ocean and river voyages, curated itineraries and every major line on one platform.

ORN Rail

High-speed routes, scenic journeys and intercity connections globally. Sustainable rail travel made effortless, from Eurostar to Shinkansen.

ORN Cars

Global car hire and fleet management with EV and premium options. Seamless mobility for leisure travellers and corporate road warriors alike.

ORN Experiences

Hand-curated tours, local experiences and destination activities — surfaced by NX/OS at exactly the right moment in the journey.
