One platform. *Every journey.*

ORN — Orchestrated Rhythms of Nature — has built the operating system for intelligent travel. We orchestrate every flight, hotel, experience and journey on a single unified platform, powered by our proprietary NX/OS intelligence layer. Backed by HCL Group — a \$60 billion enterprise — ORN has the operational scale and technology depth to be the definitive global travel platform.

TripFactory, our global travel technology platform, delivers in the region of \$2M in hotel sales to the UAE annually — and we are actively growing this. In the current climate, with UK airlift reduced and FCO advisories impacting demand, our global source markets across the USA, India, Australia and the Philippines provide a reliable short-term volume bridge for Kerzner — while our UK market entry builds a stronger long-term pipeline as confidence returns. We are here to support our partners through both.

• BUILT ON FIVE PILLARS

1 Trusted Global Brand

Transparency, trust and excellence across 104 nationalities

2 Global Distribution

Americas · Europe · Middle East · Asia-Pacific · 22 offices

3 NX/OS Technology

Proprietary AI · API-first · ISO 27001 · Real-time intelligence

• ORN • GLOBAL REACH • SOURCE MARKETS FOR KERZNER

ORN operates across 22 offices in 6 global regions. For Kerzner, this means direct access to pre-qualified, high-spending luxury travellers from every key feeder market — all orchestrated through a single intelligent platform.

USA — High-End FIT

Average booking value \$30,000. TripFactory USA specialises in five-star FIT — the highest-spending segment globally and a natural fit for Atlantis The Royal and One&Only.

India

TripFactory's largest market. Growing 20% VIP segment actively converting to ultra-luxury. India is the #1 source market for Dubai with 80,000+ active agent partners.

Australia

Strong 4/5-star mix with high per-night spend. TripFactory Australia generates significant outbound volume to UAE — a priority growth market for One&Only and Atlantis.

Philippines

Established TripFactory office serving a fast-growing outbound market. Aspirational 4/5-star travellers increasingly seeking ultra-luxury UAE experiences.

United Kingdom

ORN base at 17 Hanover Square, London. Tour operator strategy (licence or acquisition) to be confirmed by June 2026 — creating a significant new volume pipeline for Kerzner.

How we connect. *Seamlessly & intelligently.*

NX/OS is ORN's proprietary intelligence layer — the engine that learns every traveller's preferences, mood and context, then proactively surfaces the right Kerzner property at exactly the right moment. For partners, this means smarter visibility and significantly higher booking conversion.

• **AI Guest Profiling**

Learns preferences, budget & travel style — matches to Kerzner automatically

• **Real-Time Adaptation**

Responds to disruptions, availability changes and demand shifts instantly

• **Predictive Demand**

Forecasts booking windows and optimal rate periods for each Kerzner property

• **Cross-Brand Loyalty**

Single currency earning across Atlantis, One&Only, SIRO & Rare Finds

• **API-First Architecture**

REST/JSON · ISO 27001 certified · Sandbox environment · 7-step onboarding

• TECHNOLOGY CREDENTIALS

Platform Uptime SLA

7-Step

Certified Partner Onboarding

Phase 1: DMC Route — Immediate Start

Working through Kerzner's preferred Dubai DMCs — Elevate, Arabian Adventures, Desert Gate or Travco — all directly connected to Synexis. Gives TripFactory dynamic access to best available rates and live inventory from Day 1.

Phase 2: Direct Static Contract

Once volume projections are confirmed, a direct static contract can be established. Kerzner typically requires \$5–10M per resort for a direct relationship. Our USA, India and Australia pipelines are structured to reach this threshold.

Phase 3: Direct Synexis API Integration

TripFactory's API-first architecture is designed for direct system integration. Once commercial volumes justify it, a direct Synexis feed will be established — eliminating DMC margin and giving Kerzner full distribution visibility.

Five reasons to *choose ORN.*

"ORN is not a booking platform. It is the intelligence layer beneath the luxury journey — delivering the right Kerzner guest, every time."

01 // SCALE

\$300M → \$1B Growth

TripFactory turns over \$300M annually targeting \$1B and Indian stock exchange listing

02 // REACH

USA • India • Australia • Philippines

Four active source markets • USA avg. booking \$30,000 • India 20% VIP segment growing

03 // TECHNOLOGY

API-First Architecture

Deeply connected via APIs with bed banks • DMC route operational from Day 1 via Synexis

04 // NETWORK

22 Offices Converting to Outbound

22 acquired offices globally converting from inbound DMCs to outbound tour operators

05 // TIMING

UK Market Entry Q2 2026

Tour operator licence or acquisition decision within 30 days • New UK volume pipeline

ATLANTIS

ONE&ONLY

SIRO

RARE FINDS

Together, we reach *every luxury traveller.*

Kerzner's portfolio — Atlantis, One&Only, SIRO and Rare Finds — represents the pinnacle of destination hospitality. ORN's NX/OS platform identifies, qualifies and delivers the right guest to the right Kerzner property, at exactly the right moment, from the world's most productive luxury outbound markets.

Aligned Guest Profile

ORN's travellers — high-net-worth, experience-led, internationally mobile — are exactly the guests Kerzner's brands are built for. India, UK, Europe and GCC.

Preferred Partner Status

Priority placement, co-marketing campaigns, dedicated allocation agreements and inclusion in all agent-facing promotional programmes across all markets.

Growing Together

As Kerzner opens Montana, Courchevel, Fiji and Antigua — ORN activates new source markets from Day 1. We grow in step with Kerzner's expansion.

Production Accountability

We share directional production data and support destination-specific volume commitments under NDA. Our \$2M+ UAE revenue provides a clear benchmark.

Commercial Flexibility

Net rate or commission • FIT or groups • Static or API • MICE volumes. We work with whichever model best suits each Kerzner property and brand.

- WHAT ORN OFFERS KERZNER • THE PARTNERSHIP IN PRACTICE

One platform. *Every Kerzner guest.*

Guest Sourcing

Pre-qualified luxury travellers from India, UK, Europe and GCC via 80,000+ agents.

Technology & API

API-first architecture · DMC route via Synexis from Day 1 · Direct integration roadmap.

Data & Analytics

Guest behaviour insights, demand forecasting and booking window intelligence.

- HOW TO GET STARTED · FIVE STEPS

Revenue Growth

Incremental room nights, F&B and experiences revenue across all Kerzner brands.

Co-Marketing

Joint campaigns across ORN global agent network, co-branded per Kerzner property.

Global Expansion

As Kerzner opens Montana, Courchevel, Fiji and Antigua — ORN activates Day 1.
